## Questions, problems, missing parts?

If purchased in North America, please contact the Lift Bridge Kitchen & Bath customer service

at (888) 930-8528 or  
[support@strategicretailsolutions.com](mailto:support@strategicretailsolutions.com)

If purchased in other countries, please contact the Firplak S.A customer service

at (+57 4) 444-1771 or  
[servicioalcliente@firplak.com](mailto:servicioalcliente@firplak.com)

This furniture is manufactured with wood from cultivated forests and is covered with:

Melamine **ecofort**<sup>®</sup> material which gives a greater resistance to:

SCRATCHES

TEMPERATURE

STAINS

SUPERFICIAL HUMIDITY

SPRAINS - CRACKS

## CERTIFICATE OF GUARANTEE

### READ BEFORE ASSEMBLY

-  Please read all instructions carefully.
-  Handle with care. Do not drop, handle roughly, or overtighten screws as this will cause damage to the wood.
-  We recommend using two people to assemble, move or lift the cabinet.
-  The production lot number on the last page of the installation manual will be needed for warranty issues.
-  Please contact the appropriate customer service team if you have any questions.

### RECOMMENDATIONS AND WARNINGS

-  Use a dry cloth to clean.
-  Fill the lower drawers first. Avoid opening more than one drawer at a time.
-  Avoid getting the cabinet wet.
-  Do not allow children to climb on the cabinet.
-  Do not paint the cabinet.
-  Do not drag the cabinet, empty the cabinet and then lift and move.

For us it is essential to work with high quality materials and under certified processes ISO 9001.

Our furniture has a 10-year Limited Warranty from the date of purchase. It covers defects or parts that prevent the correct assembly or usage.

This warranty includes the replacement of defective parts and is valid as long as the assembly instructions have been followed.

This warranty excludes furniture that has been assembled incorrectly and modified or repaired.

This warranty excludes damage caused by external factors, deterioration due to being installed on wet walls or damage from being exposed directly to water.

Proof of purchase (original sales receipt) must be made available for all warranty claims.

### Cultured Marble / *Mármol cultivado*

Cultured Marble is a man-made, chemically bonded, mineral-filled, polymeric material, which is molded and hardened in a variety of shapes.

El mármol cultivado es un material polimérico de origen mineral, químicamente fusionado, fabricado artificialmente que se moldea y endurece en una variedad de formas.

### Cleaning High Gloss Finishes / *Limpieza para acabado brillante*

This material is manufactured with a high-gloss coating called a gel-coat which becomes an integral part of the product. The gel coat layer is resistant to most staining agents. However, products containing harsh chemicals or acids (hair color, acetone nail polish remover, etc.) can damage the finish if allowed to remain on gel coat surface for an extended period.

Any cleaning should be handled the same as the automotive finish on your car. Use a mild non-abrasive cleanser, liquid dish soap, baking soda and water, or vinegar and water with a soft cloth or sponge. (Do not use scotch-brite pads, scouring pads, steel wool, scrapers, or sandpaper) **DO NOT USE ABRASIVE CLEANERS.**

Before using any cleaner, be sure to read the label for recommended usage and warnings. To remove hard water stains or mineral deposits, use a vinegar soaked soft cloth to soak area for an extended period and then wipe clean. Protect the surface with regular applications of automotive wax.

Este material se fabrica con un recubrimiento de alto brillo denominado gel coat que se convierte en una parte integral del producto. La capa de revestimiento de gel es resistente a la mayoría de las manchas. Sin embargo, los productos que contienen químicos fuertes o ácidos (colorante para el cabello, removedor de esmalte de uñas de acetona, etc.) pueden dañar el acabado si se deja permanecer en la superficie del gel coat durante un período prolongado.

Cualquier limpieza se debe manejar igual que el acabado automotriz en su coche. Use un limpiador no abrasivo, suave, jabón líquido para platos, bicarbonato de sodio y agua, vinagre y agua con un paño suave o una esponja. (No utilice esponjas scotch-brite, almohadillas de fregar metálicas, raspadores o papel de lija) **NO UTILICE LIMPIADORES ABRASIVOS.**

Antes de usar cualquier limpiador, asegúrese de leer la etiqueta para el uso recomendado y las advertencias. Para eliminar manchas de agua dura o depósitos de minerales, use un paño suave empapado de vinagre para remojar el área por un período prolongado y luego limpie. Proteja la superficie con aplicaciones regulares de cera automotriz.

## Removing scratches – High Gloss Finishes / *Para eliminar rayones en acabado brillante*

To remove fine scratches, scuffmarks or light stains from your high gloss product use an automotive buffing compound or baking soda and a hand-held polisher.

Deeper scratches may require wet sanding with appropriate sandpaper (600, 800, 1000). To bring the shine back, buff with an automotive buffer and polishing compound.

Do not use rubbing compound, as this is too coarse. A professional should handle deep scratches. You **MUST** be careful **NOT** to buff or sand through the gel coat surface. Once this is done, the piece is no longer protected in that spot. Protect the surface with regular applications of automotive wax.

Para quitar rayones superficiales o las manchas ligeras de su producto con apariencia brillante utilice cera para automóviles o un bicarbonato de sodio y un pulidor manual.

Las rayas más profundas pueden requerir lijado en húmedo con papel de lija apropiado (600, 800, 1000). Para traer el brillo de nuevo, puede utilizar cera para automóviles.

No utilice rubbing compound (pasta pulidora) ya que es demasiado abrasiva. Un profesional debe manejar rayas profundas. Debe tener cuidado de no pulir con polvo o arena sobre la superficie del producto. Una vez hecho esto, la pieza ya no estará protegida en ese lugar. Proteja la superficie con aplicaciones regulares de cera para automóviles.
