

4 EASY STEPS

FOLLOW THESE INSTRUCTIONS TO WOW YOUR NEIGHBORS

EN CUATRO PASOS SENCILLOS

Siga estas instrucciones para impresionar a sus vecinos

STEP 1 PREPARE

FOR BARE SPOTS/NEW LAWNS:
Remove debris, then rake the soil to loosen and smooth the top layer.

PARA ZONAS CON NUECOS O CÉSPED NUEVO: Retire los desechos y luego rasque la tierra para aflojar y suavizar la capa superior.

FOR OVERSEEDING/THIN AREAS:
Start by mowing existing grass as short as possible followed by removing debris. Then rake the soil to loosen and smooth the top layer.

PARA RESEMBRAR O ZONAS DELGADAS: Corte el césped existente lo más corto posible y elimine los desechos. Luego rasque la tierra para aflojar y suavizar la capa superior.

STEP 2 APPLY FERTILIZER

Apply a starter fertilizer at the manufacturer's recommended rate.

APLIQUE UN FERTILIZANTE: Aplique la cantidad de fertilizante recomendada por el fabricante.

STEP 3 APPLY SEED

Spread the seed evenly using a drop, rotary or hand-held spreader according to the recommended spreader settings listed. Rake gently to work your seed & fertilizer into the soil.

APLICACIÓN: Disemine las semillas de manera uniforme con un esparcedor de caída, rotatorio manual, de acuerdo con las configuraciones recomendadas y enumeradas del esparcedor. Rasque levemente para que las semillas y el fertilizante germinen en la tierra.

STEP 4 WATER

Keep the soil moist by watering daily as needed until grass sprouts and reaches about 3" tall.

REGAR: Mantenga la tierra húmeda al regar lo que sea necesario por día hasta que el césped brote y alcance alrededor de 3 pulgadas (7.62 cm) de alto.

RECOMMENDED SPREADER SETTINGS

SPREADER TYPE	OVERSEEDING/ THIN AREAS	BARE SPOTS/ NEW LAWNS
Expert Gardener™ Push Seed Spreader	13	15*
Scotts® Turf Builder® EdgeCast® Mini Broadcast Spreader	10.5	15*
Scotts® Wheel® Hand-Held Spreader	5	N/A
Ste-A-Grass® 32-lb Broadcast Spreader	9.5	15*

*Go over twice

ADDITIONAL CARE TIPS

1 Mow lawn when grass height reaches 3" tall

2 Avoid removing more than 1/3 of the total grass blade length at any single mowing

3 Hot summers can be stressful on your lawn; increase the mowing height during hot & dry periods to reduce stress on lawn

MOST IMPORTANTLY - Don't kill the grass before it starts by using weed control (pros call it preemergent) on your lawn until your grass has reached its full mowing height of 3"

WARNING: Treat seed, do not use for feed, feed or other purposes. Keep out of reach of children, and animals when wet and dry.
