

# RANGE HOOD CHECKLIST

Thank you for your range hood purchase!

We're trying to reduce the amount of time and money lost from installing units only to find out they are not working due to being damaged in transit - so we kindly ask you fill out this checklist before installing or scheduling an installation.

## Pre-Shipment Check

↳ Checking for functionality and damage

## Initial Inspection

↳ Check for damage caused during shipment

## Power

↳ Plug the unit into an outlet to see if it powers on

## Controls

↳ Check the buttons to make sure they all function

## Fan Speed

↳ Go through all fan speeds and check for unusual noise or rattling

## LED Lights

↳ Check that both lights work and are about equal in brightness

**\* Please let us know if you have any questions or issues. Note that we are not liable for damage caused by improper installation, or any installation fees. We do not advise any disassembly in case of any issues due to potential safety risks.**
