## SWB00 3/4" ID Coated Stainless Steel Water Heater Connector – Female Iron Pipe x Female Iron Pipe

**Use:** For use in exposed locations only to connect water heaters, water softeners and other water connected devices to the water supply

**Design Features:**

- **Proprietary ProCoat® clear coat** provides unrivaled corrosion protection from harsh chemicals that can cause surface deterioration and pinhole leaks.
- **Full flow, maximum performance.** 3/4" internal diameter provides greater water flow without obstruction
- **Integrated dielectric sleeve** effectively isolates dissimilar metals within the waterway to help prevent galvanic and electrolytic corrosion
- **No dielectric union needed** with installation. Dielectric is built-in to the design of the connector
- **Less torque to seal** against the pliable rubber washer, especially on rough nipple surfaces
- **Longer connector nuts** allow a greater number of thread-to-thread contacts and a better seal
- **100% leak tested** prior to coating application to ensure connector performance and reliability
- **100% Compliant**

**Operating Specifications:**

**Temperature:** 40° - 180° F  
**Water Pressure:** 125 PSI maximum

**MATERIAL SPECIFICATIONS**

<b>Tubing</b>	Stainless steel
<b>Dielectric Sleeve</b>	Polypropylene
<b>Nut</b>	Brass
<b>Washer</b>	Rubber
