

Patio Non-Slip PVC Interlocking Outdoor Deck Tiles Installation Instructions

Materials Needed:

Utility Knife or Box Cutter

- Patio Non-Slip PVC Interlocking Outdoor Deck Tiles are easy to install with a unique interlocking tab and loop connecting system.
- Snap together the tiles as you place them on the surface, keeping the loops of each tile facing the same direction.
- Continue joining new tiles until your installation is complete.
- For wall to wall installation, or to fit around obstacles, this PVC floor tile can be cut easily with a utility knife.
