

Toe Touch Bathtub Stopper

INSTRUCTIONS

1. Choose the correct brass fitting (A or B or F) by threading into the hole in the drain shoe.
2. Remove Brass fitting after testing.
3. Hold the stopper in hand with the threaded bottom facing up and thread the brass fitting into it while placing the star washer between the fitting and the stopper.
4. Use screw driver to tighten the fitting.
5. Place the Hair Catcher in the Tub Drain
6. Thread the stopper into the threaded hole in the drain shoe.
7. To close the drain, push down on top of the stopper.
8. To open the drain, push down on top of the stopper.

When Hair Catcher becomes full with debris/hair, remove stopper to clean/replace hair catcher basket.
