Overheat Protection

4 L Home Water Distiller

1 L/H Distilling Speed & Temp/Time Setting & Glass Container

- VEVOR's water distiller with an upgraded panel is a perfect tool for purifying your water and helping you get a constant supply of distilled water, whether you're at home or in the office. This distiller can effectively dissolve VOCs and filter other impurities, and the distilling speed reaches up to 0.26 Gal (1 L) of water per hour. What's more, as an ideal match for a tiny kitchen, it is not much bigger than a kettle in size and won't take up so much of your space.
- Efficient Water Purification
- Trustworthy Materials
- Upgraded Button Control Screen
- Fast Heat Dissipation
- Easy to Clean and Maintain

VEVOR®

Tough Equipment & Tools, Pay Less

VEVOR is a leading brand that specializes in equipment and tools. Along with thousands of motivated employees, VEVOR is dedicated to providing our customers with tough equipment & tools at incredibly low prices. Today, VEVOR has occupied markets of more than 200 countries with 10 million plus global members.

Why Choose VEVOR?

- Premium Tough Quality
- Incredibly Low Prices
- Fast & Secure Delivery
- 30-Day Free Returns
- 24/7 Attentive Service

Constant-Temp Fermentation

The upgraded time setting function and the traditional temperature control are perfect for constant-temp fermentation, allowing you to distill alcohol, hydrosol and essential oil with this machine.

Dry-Burning Protection

When the temperature exceeds 115°C, the machine will stop heating. And it will automatically shut off when the internal temperature is over 150°C. Dual protection safeguards your daily operation.

Efficient Cooling System

The four-blade fan on the top adopts light-weight aluminum material, and the condensing coil in the exhaust cap is made of 304 stainless steel. A reliable heat dissipation effect can be ensured.

Convenient Touch Screen

The easy-to-monitor panel integrates a dual-temp display, showing both setting and actual temperatures. On/off switch and °C/°F switch are also equipped. Plus, you can set the distilling period between 0 and 99 hours.

Practical Carbon Filter

3 packs of carbon filter are provided. Just place one pack in the water outlet, then it can further dissolve the impurities and bring you the pure distilled water with better taste & odor.

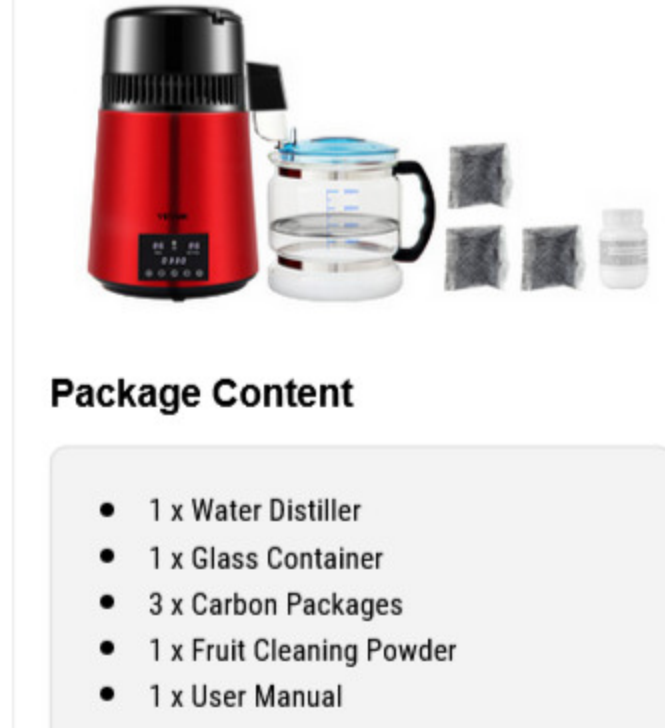

Extensive Applications

Our water distiller can dissolve most of the impurities in tap water. Apart from settling it down in your kitchen, you can also take it to offices, laboratories, hospitals, dental clinics, etc.

Specifications

- Model: YMK40207
- Color: Red
- Voltage: 110V/60Hz
- Rated Power: 750 W
- Distilling Speed: 0.3 Gal/H (1 L/H)
- Temperature Range: 86-226.4°F (30-108°C)
- Barrel Material: 304 Stainless Steel
- Carafe Material: Borosilicate Glass
- Carafe Volume: Max. 1.03 Gal (3.9 L)
- Carafe Size: Φ7.1x7.5 in (Φ180x190 mm)
- Carafe Weight: 2.3 lbs (1025 g)
- Machine Dimensions: Φ9.3x15.2 in (Φ235 x385 mm)
- Machine Weight: 7.9 lbs (3582 g)
- Certification: CE & FDA

Package Content

- 1 x Water Distiller
- 1 x Glass Container
- 3 x Carbon Packages
- 1 x Fruit Cleaning Powder
- 1 x User Manual
