

# THRILLER, FILLER AND SPILLER

The universal three-step method for creating eye-catching container gardening arrangements every time.

Step  
One

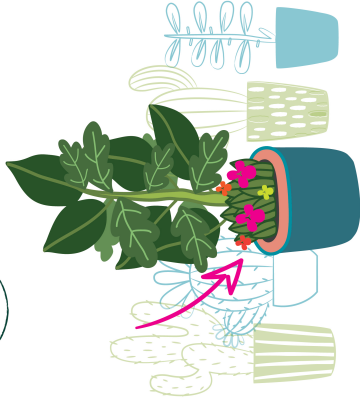

## THRILLER

This your WOW plant.  
Think big, tall & bold.  
Place your thriller plant  
in the center or in the  
back of your planter  
for a statement look.

Step  
Two

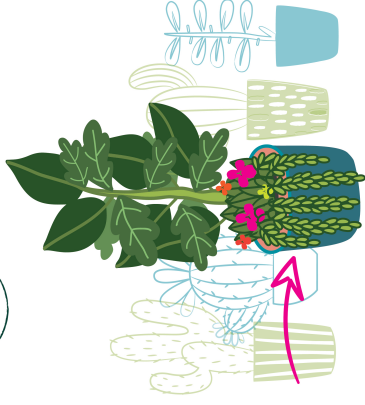

## FILLER

The filler plant adds mass  
to the composition and  
brings a textural or  
colorful contrast to the  
arrangement. Place fillers  
in front or around the  
thriller plant.

Step  
Three

## SPILLER

Time to make the finishing  
touches! The spiller plant  
gets its name from gently  
cascading over the edges of  
the planter. Add the spiller  
plants along the perimeter  
of your planter to complete  
the dynamic look.
