snow tools

SNOW REMOVAL TOOLS

**PATENTED
Shock-Absorbing
D-Grip**

**Reduce
the potential
of injury.**

Absorbs the shock

normally transferred to the user's wrist, elbow, and shoulder joints during repetitive shoveling motion.

Cushions

the heavy contact of tool hitting a hard object.

POWER LIFT SnowThrower™

Never bend to lift snow again!

Innovative twisting action design allows for easy snow release.

SnowThrower™ is completely adjustable to the user. The easy-to-use screw collar adjusts to the height of the person, while the front handle pivots to adjust to the user's arm length and position. The shovel mechanism allows a person to lift snow and release it without bending. A simple twist of the wrist easily releases snow.

Massive D-Grip

The dual-handle system allows the user to lift snow without bending. The front handle automatically adjusts to the individual user.

To release the snow, the user turns the rear handle with a small twist of the wrist – the front hand grip stays stationary.

As the rear handle turns, the blade turns.

MegaDozer™

a shovel, pusher and scoop in one MEGA snow-removal tool!

#1083

The **MASSIVE BLADE** is the **BIGGEST THING** to hit **WINTER!**

Northern Lites™ PLUS SERIES

Deluxe Lightweight Snow Tools

Northern Lites™ PLUS snow tools are the perfect blend between lightweight handling and extremely durable materials.

The handle is lightweight aluminum with a deluxe comfortable, extra-large D-grip with a cushioned padded grip. The blades are lightweight poly resin. Each Northern Lites PLUS tool has a nylon wear strip that extends tool life and is non-abrasive for use on all surfaces.

- Lightweight aluminum handle
- Nylon wear strip
- Extra-large D-grips
- Easy to use with big gloves
- Cushion-pad grip
- Non-abrasive – safe for decks and walks

LifeSaver™ Snow Tools

#1176

#1177

#1214-LS

Provides less stress on the heart and back than ordinary shovels.

Bigfoot LifeSaver snow tools, with the S-bend handle, reduce the amount of bending and lifting needed to shovel snow. The handle allows you to lift snow for shorter distances – letting you, your heart and your back work less.
