Paper

Silicone Rubber

10.2 in / 260 mm
5.9 in / 150 mm

The large embossing plate, measuring 10.2 x 5.9 in / 260 x 150 mm, accommodates a variety of materials, including fabric leather, PVC/EVA foam, non-stick materials, plastic, rubber sheets, and medium-soft materials. The leather embossing machine is versatile for a wide range of crafting needs.

STRONG LOAD-BEARING
NO MORE DEFORMATION

Premium Manganese Steel Base Plate

Wear-Resistant
Impact-Resistant

Durable Needle Roller Bearing

Integrated Forging
Strong Load-Bearing, Less Effort

Dual Guide Shafts

Balanced Force Distribution
Spacious Design, Easy Operation

This die-cut machine features high-strength roller bearings and a sturdy manganese steel base plate and effortlessly handles weights of up to 3306 lbs/ 1.5 T without any concerns about deformation.

UPGRADED LIMITING SCREWS
& SECURE BASE

Create a stable and precise embossing experience

Old Version

⊗ Prone to Shaking

⊗ Inaccurate Embossing

⊗ Handle Recoils to the Back

⊗ Difficult to Operate

We've improved stability by adding limiting screws and a robust base design to reduce wobbling. Additionally, the handle of the leather press machine can be secured in the front, preventing any recoil to the back and making your operation smoother and more efficient.

DURABLE RUST-RESISTANT STEEL MATERIAL

Unafraid of adverse environments

High-Quality Steel Body

High Strength, Corrosion-Resistant

Black Oxide Coating

Rust Prevention

Our leather die cutter machine is crafted from high-quality steel and treated with a black oxide coating for corrosion resistance and rust prevention, ensuring long-lasting use even in harsh environments and extending the equipment's lifespan.

0.47 IN / 12 MM
ADJUSTABLE STROKE

Lightweight and efficient
for different styles

0.47 IN / 12 MM

Easily select and adjust embossing depth to create a variety of textures, patterns, and effects, catering to different design needs and projects. Whether it's thin or thick leather, this die cutting machine handles it all with ease.
