

NOURISON
 Nourison has been furnishing the world with exquisitely crafted rugs, carpets, and home décor since 1980. Our ever-growing catalog of floor coverings and home accents spans an array of styles and price ranges, for both residential and commercial spaces.

SIZING TIPS | HOW TO CHOOSE THE RIGHT RUG SIZE

LIVING ROOM

The rug should pull all furniture together into a single area.

BED ROOM

Leave at least 18"-24" of rug on either side of the bed.

DINING ROOM

Leave 18"-24" of rug around all sides of the seating area.

RUG HEIGHT | HOW TO CHOOSE THE RIGHT PILE HEIGHT

FLAT

Typically, a .25" height. Durable construction and thin profile makes flat rugs ideal for heavily trafficked areas like entrances, hallways, living rooms and bedrooms. Allows clearance for doors.

LOW

Typically, a .25" - .33" height. Durable construction allows for even wear and easy maintenance. Good for heavily trafficked areas. Allows clearance for doors.

MEDIUM

Typically, a .5 - .75" height. Medium pile rugs offer underfoot comfort with the benefits of even wear and easy maintenance.

HIGH

Typically, a 1 - 2" height. The fluffy, thick pile is beloved by cold bare feet and adds soft luxury to a bathroom. A plush or shag rug adds bold character and a cozy feel to a bedroom or living room.
