

Care and Use Manual:

Frame Care: Wipe the powder-coated steel frame with a soft, damp cloth to remove dirt and salt (if used at the beach). For tough stains, use a mild soap solution, rinse thoroughly with clean water, and dry completely to prevent rust. Avoid abrasive cleaners that may damage the coating.

Mesh & Pillow Maintenance: Hose down the mesh fabric with water to clean; air dry. Spot clean the pillow with a mild detergent and water, then air dry—do not machine wash. Store the pillow separately in a dry place when not in use for extended periods.

Weight Limit: Do not exceed the 265 lbs weight capacity to maintain structural stability.

Folding & Storage: When folding, ensure all parts are aligned to avoid damage. Store in a dry, covered area when not in use to prolong lifespan. Avoid leaving it exposed to heavy rain or extreme weather for long periods.

Usage Tips: Always set up the chair on a flat, stable surface. When reclining, lock the backrest securely into your chosen position to prevent unexpected movement.

Keep away from sharp objects to avoid tearing the mesh fabric.
