

HOME DEPOT® + SAMPLIZE® PEEL & STICK SAMPLES

- Peel & Stick Application
- No Painting, No Cleanup
- Genuine Manufacturer Paint
- Displays Color Just Like a Wall
- Wraps Around Corners
- Non-Damaging Adhesive Backing
- Repositionable
- Zero VOC

WHERE TO USE

Apply to interior wall surfaces where you intend to paint. View in a variety of lighting environments (full sun, partial sun, ambient lighting, etc.). Color is strongly influenced by the light around it. Only apply to properly cured surfaces. Do not apply to surfaces that have been painted within the prior two weeks. Samples may not properly adhere to unfinished surfaces like drywall.

PREPARATION

Clean the wall surface with a damp cloth or paper towel. Ensure the surface is smooth and dry.

APPLICATION

Peel the adhesive sample from the paper liner. Carefully apply the sample to a clean wall surface, ensuring not to let the adhesive backing stick to itself. Smooth out any remaining air bubbles by hand. The sample may be repositioned or moved to a variety of other clean surfaces before the adhesive wears out. Do not leave a sample on a single wall surface for longer than two weeks.

DISPOSAL

Carefully peel the sample from the wall surface and discard.
