

CARE AND USE OF YOUR GARDEN HOSE

Important: This hose is intended for normal use. DO NOT RUN HOT WATER THROUGH THIS HOSE.

- Do not leave hose under pressure when not in use. Place washer firmly into coupling at faucet end to ensure a tight seal.
- Drain your hose in the summer when you are not using it and keep it shaded as much as possible. Water left in a hose in the sun will expand, damaging the hose.
- Protect your hose from harsh winter weather by storing it indoors. Be sure to drain the hose completely before storage as water remaining in the hose can freeze, damaging the hose.

When used for normal residential and commercial purposes, this product is warranted against defects in workmanship or materials. Continental's liability is limited solely to replace hose that is defective in materials or workmanship.

IN NO EVENT SHALL CONTINENTAL BE LIABLE FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES.

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This policy gives you specific legal rights, and you may also have other rights which vary from state to state.

For replacement claims, the following items must be submitted:

1. An original or copy of the dated cash register receipt from the store where the hose was purchased.
2. The UPC bar code from the packaging.
3. The complete hose including both couplings.
4. Include your name, address and phone number.

For product concerns, please contact your local Home Depot store.

Retain the actual hose packaging for your records. Thank you for purchasing a Continental hose.
