CritterGuards

1.

BUILD A WALL

Hold a Board on the ground so it's standing on edge with the notched ends to the left and right. Slide a Tall Post down over one notched end of the Board. Next, slide another Tall Post over the other notched end. This forms a wall.

Repeat Step One to complete a second wall.

2.

BUILD A FRAME

Place the walls parallel to each other and connect them into a square with two more Boards. This forms the frame of the Garden Bed.

3.

ADD A SECOND AND THIRD BOARD TO ALL WALLS & ATTACH DECORATIVE CAPS

Add two more Boards, one at a time, directly on top of each existing Board in the frame. Push the Boards down evenly between the tops of the Tall Posts. If needed, tap snugly into place with a rubber mallet. Attach each Decorative Cap to a Tall Post with a screwdriver and one Screw. We recommend drilling a pilot hole first for each Screw.

4.

INSTALL CRITTERGUARDS

CritterGuards are pre-assembled and self-staking. Simply push them down into soft, moist soil inside the walls of each frame.
