# Selectives Narrow Closet System

INSTALLATION TIPS

## PARTS

### Model #17423

Item #	Qty.	Part
57032	1	16 in. Wide Tower with (3) Expandable Closet Rods
7034	3	Top Shelf
7040	3	Top Shelf Brackets

## GETTING STARTED

- Please refer to the instruction sheet provided in the product package for a list of the required and recommended tools.
- Double check you have all included parts for the products.
- Examine your space and plan where you want to install your tower(s) and rods.
- Assemble and place your tower(s), making sure they are attached to the wall as instructed.
- Measure the rod lengths for each side. The distance between the unit(s) and wall(s) should not exceed 48 in. as the top shelves and closet rods fit a maximum of 48 in.
- The closet rods can expand between 30 in. to 48 in. If your desired length is less than 30 in., the rod will need to be cut.
- Install the closet rods and top shelves.
