SD-300ML

# MINI DEHUMIDIFIER

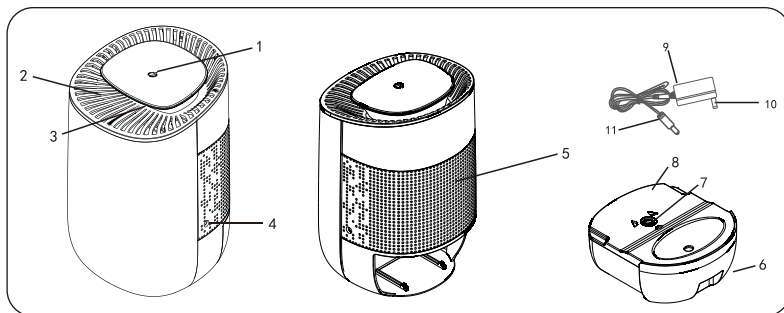

SD-300ML

## INSTRUCTION MANUAL

Please read these instruction thoroughly and keep it in a safe place for future reference

### FEATURES

This is a modern, light weight, and quiet dehumidifier that uses the Peltier effect to keep your space cool and comfortable. It is ideal for rooms with poor ventilation and dehumidifies at a rate of 300ml of water/day.

- |                       |                       |              |
|-----------------------|-----------------------|--------------|
| 1 ON/OFF Button       | 2 Air Outlet          | 3 Indicator  |
| 4 Power Socket        | 5 Air Inlet           | 6 Water Tank |
| 7 Hydraulic Cut-off   | 8 Water Tank Cover    | 9 Adaptor    |
| 10 AC Power Connector | 11 DC Power Connector |              |

### SPECIFICATIONS

Model No.: SD-300ML  
Size: 146\*146\*227mm  
Input: DC9V 2.5A  
Power: 23W  
Volume: 600ml  
Working Capacity: 300ml/D (30°C, RH80%)  
Applicable Ambient Temperature: 5-50°C  
Coverage Area: < 15m²

### OPERATING INSTRUCTIONS

• **On/Off**

1. Connect the power source to the unit and plug into a wall socket.
2. Press the ON/OFF button to turn on the unit.
3. Press the ON/OFF button to turn off the unit.

• **Indicator Light (Water tank level)**

1. Hold ON/OFF button for 3 seconds to turn indicator on or off.

NOTE: The unit will automatically stop dehumidifying when frost is detected on the surface of the cooling plate and the defrost function will be activated. Once defrost is complete, the unit will resume dehumidifying automatically.

### INDICATOR LIGHT

1. The water tank indicator light will turn RED when the 600ml capacity is reached. The unit has a daily working capacity of 300ml.
2. When the indicator light turns RED, the unit will automatically shut off.
3. Please POWER OFF the unit before attempting to empty the water tank. Be careful to not tilt the tank when it is full to avoid water spillage.
4. Slide the water tank cover off, empty the water, then slide the cover back on. Reinsert the water tank into the unit to operate as instructed.

### CLEANING

1. Please POWER OFF the unit and unplug from the wall socket.
2. Clean the surfaces of the unit, air inlet, and water tank with a soft cloth.

### WARNINGS

1. Please power down the unit when the unit is not in use.
2. DO NOT store the power source in a wet/damp area.
3. Always keep the unit in its upright position to avoid leaks
4. Check to make sure the air inlet/outlet are clear from blockage.
