Pre-Assembly

TOOLS REQUIRED

Phillips Screwdriver

PACKAGE CONTENTS

Part	Description
A	Front Panel x 1
B	Back Panel x 1
C	Seat-Lid Panel x 1
D	Bottom Panel x 1
E	Side Panels x 2

Part	Description
F	Lid Support (Pre-assembled at factory) x 1
G	Self-Tapping Screws x 12
H	Gas Shock Bracket/Hinges x 2
I	Gas Shocks x 2
J	Machine Screws x 6

Assembly

### 1 Attaching Side Panels to the Bottom Panel

- Place the bottom panel (D) on a level surface.
- Slide a side panel (E) onto the bottom panel (D) then repeat with the other side panel.

## Assembly

3 Attaching the Front Panel

- Slide the front panel (A) into position using the slots at the front edge of the two side panels (E).
- Press the lock tabs (1) into the slots (2) in the bottom panel and lock in place.

## Assembly

5 Attaching the Bracket/Hinges

- Position the bracket/hinge (H) into the grooves at the top-inside corner of the back panel (B). Secure in place with three machine screws (J) and two self-tapping screws (G).
- Use two machine screws (J) to attach the bracket (H) to the side panel (E).
- Use two machine screws (J) to attach the bracket (H) to the back panel (B).
- Repeat for the other bracket (H).

## Assembly

7 Attaching the Gas Shocks

- Attach the gas shocks (I) to the two round nubs on the bracket/hinges (H) by pushing both ends until you hear a 'snap' sound.

Assembly
2 Attaching the Back Panel

- Slide the back panel (B) into position using the slots at the rear edge of the two side panels (E).
- Press the lock tabs (1) into the slots (2) in the bottom panel and lock in place.

Assembly

### 4 Attaching the Seat-Lid Panel

- Hold the seat-lid panel (C) horizontally and line up the lid hinge tabs (1) with the back panel hinge pins (2).
- Push the seat-lid panel (C) horizontally into the back panel hinge pins (2) and rotate the seat-lid panel (C) closed to lock in place.

Assembly

6 Attaching the Bracket/Hinges to the Seat-Lid Panel

- Attach the bracket/hinge (H) to the inside of seat-lid panel (C) with four self-tapping screws (G) on each bracket/hinge (H).

Care and Cleaning

- Use soap and water with a soft cloth to clean the product. DO NOT use bleach, ammonia, or caustic cleaners, as these will damage the finish.
- Locks, latches, and hinges should be lubricated regularly, and gas shocks wiped with a dry cloth to remove dust and dirt.
- Rinse with clean water and dry with a soft, absorbent cloth towel.
