

**BACK TO THE ROOTS**

**GROW ORGANIC BASIL**

100%  
Guaranteed  
TO GROW

Harvest for months right out of this can!

**GARDEN-IN-A-CAN**

**JUST ADD SUN & WATER**

BioChar Technology Inside  
No drainage holes or transplanting needed!

**1**

Slowly add 1/2 cup of water to soil. Sprinkle 7-10 seeds (included) & mix into top ~1/4" of soil.

1/4"

**2**

Place in sunny window or under grow light. Add ~2 tbsp of water per day. After seeds germinate (~7-14 days), gently remove all but 3 plants.

**3**

Once a plant has multiple sets of leaves, you can begin harvesting from the top. Enjoy as pesto on pasta, add to a sandwich, or visit our website for lots of other basil recipes!
