

Abridged Faux Ivy Fence Installation and Usage

Instructions

Thank you for choosing our faux ivy fence. This guide offers concise instructions on installation, usage, and maintenance.

1. Installation

Preparation

Collect the fence, zip ties, measuring tape, and scissors if needed. Measure the installation area, considering the fence's expandable nature.

Step - by - Step Installation

- . **Expand the Fence:** Adjust it to the required length. The fully expanded size is 22X120 inches, fully closed is 11X47 inches, and the common size is 36X92 inches.
- . **Position the Fence:** Place it in the chosen spot on a flat, stable surface.
- . **Secure the Fence:** Use zip ties to fasten it to nearby structures like walls or posts, spacing the ties evenly.

2. Usage

Decoration and Privacy Protection

Use the fence to decorate spaces, covering bare walls or adding greenery to patios. Adjust it to block unwanted views. It allows air circulation and blocks UV rays.

3. Maintenance

Cleaning

Regularly flush the fence with water to remove dirt. For stubborn stains, use mild detergent and a soft brush, avoiding abrasive cleaners.

Inspection

Check the fence and zip ties periodically for damage. Contact customer support if any parts need replacement.

Precautions

Don't over - stretch the fence. In extreme weather like strong winds or heavy snow, take it down to prevent damage.
