IMPORTANT SAFEGUARDS 4

Before using your freezer, it must be properly positioned and installed as described in the instructions in this manual. To prevent personal injury or property damage, or injury when using this appliance, follow these precautions, including the following:

DANGER

- Plug into a grounded 3 prong outlet, do not remove ground pin, do not use an adapter, and do not use an extension cord.
- Do not store or disconnect the electric power when your hands are wet.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified personnel to avoid a hazard.
- Do not use electrical convenience outlets near water, such as under sinks, in bathtubs, near pools, etc.
- Do not store or disconnect the electric power during a lightning storm.
- Avoid dropping or puncturing the power cord.
- Do not use electrical convenience outlets near water, such as under sinks, in bathtubs, near pools, etc.
- Do not connect or disconnect the electric power while your hands are wet.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified personnel to avoid a hazard.
- Do not use electrical convenience outlets near water, such as under sinks, in bathtubs, near pools, etc.
- Do not store or disconnect the electric power during a lightning storm.
- Avoid dropping or puncturing the power cord.
- Do not connect or disconnect the electric power while your hands are wet.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified personnel to avoid a hazard.

WARNING

- Use two or more people to move and install the freezer. Failure to do so can result in back or other injury. When moving the appliance, do not lift it beyond 45° from the upright position.

4. Electrical connection

WARNING

- Improper use of the grounding plug can result in a risk of electrical shock. If the power cord is damaged, have it replaced by an authorized service technician.
- This appliance must be connected to a properly grounded receptacle. If the power cord is supplied with a three-prong plug which mates with standard household outlets, do not remove ground pin, do not use an adapter, and do not use an extension cord.
- If you do not use a properly grounded receptacle, have a qualified electrician install a properly grounded receptacle.
- Do not use an electrical convenience outlet near water, such as under sinks, in bathtubs, near pools, etc.
- Do not store or disconnect the electric power during a lightning storm.
- Avoid dropping or puncturing the power cord.
- Do not connect or disconnect the electric power while your hands are wet.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified personnel to avoid a hazard.
- Do not use electrical convenience outlets near water, such as under sinks, in bathtubs, near pools, etc.
- Do not store or disconnect the electric power during a lightning storm.
- Avoid dropping or puncturing the power cord.
- Do not connect or disconnect the electric power while your hands are wet.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified personnel to avoid a hazard.

5. Temperature control

WARNING
