Package List:

A. Sink*1
B. Bottom Storage Shelf*1
C. Supporting Beams*2
D. Supporting Leg*4
E. L-Shaped Corner Bracket*4
F. Stainless Steel Washer*4
G. Screw*16
H. Nut*16
I. Adjustable Feet*4
J. Faucet
K. Drain Strainer
L. Drain Tube
M. Gloves
N. Screwdriver

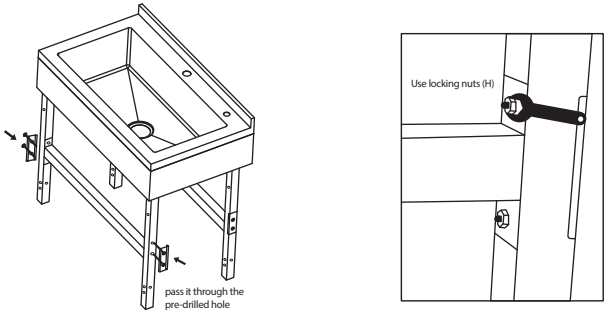

Step 1: Install the legs(D).

Place the sink upside down
Insert supporting leg (D) into the bottom of the sink (A) .

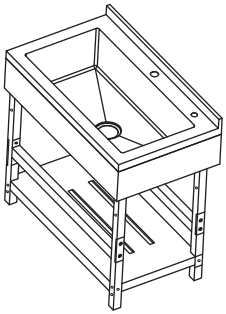

Step 2: Install the Supporting Beams (C).

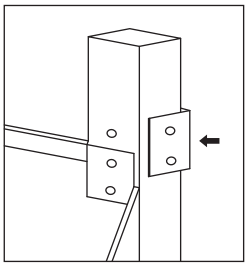

First, place a stainless steel washer (F) on the screw (G), then pass it through the pre-drilled hole, and secure it with a nut (H) at the back, secure the washer in place using two screws.

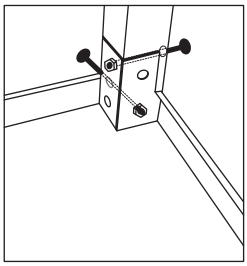

Step 3: Fit the bottom tray (B) onto the four support legs (D).

Install an L-shaped corner bracket (E) at each outer corner, using two screws (G) positioned vertically and horizontally to secure the bracket and tray together. Use locking nuts (H) to attach the tray to the washers, ensuring proper alignment.

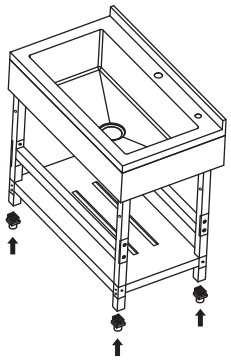

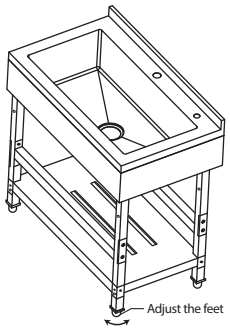

Step 4: Install the adjustable feet

Screw the four adjustable feet (I) onto Supporting Leg (D)

Note:You can adjust the legs by rotating them clockwise or counterclockwise as needed to keep the sink level.

Complete Installation
