

SAFE-T™ LADDER EXTENSION SYSTEM

1 Simple To Use Knob
Tightens by hand without scratching or damaging the ladder.

2 Safety Latch
Safety latch prevents unit from slipping off the ladder.

3 Cushioned Pads
Cushioned bumper pads help to protect the edge of a roof.

4 Hand Grips
Added hand grips for safe and easy use.

5 Retail Display Box
Retail display box for easy storage of 6 Safe-T™ Ladder extensions.

"ACCORDING TO THE U.S. BUREAU OF LABOR STATISTICS, 80% OF ALL FALLS FROM LADDERS OCCUR AT THE TOP OF THE LADDER AND 50% OF FALLS FROM LADDERS OCCUR DURING THE TRANSITION FROM THE LADDER TO A SECOND SURFACE."

Designed to attach over the top of the ladder and provide a safe and easy transition from the ladder to a second surface, the Safe-T™ Ladder requires no tools, drilling or bolting to hold it securely in place. Once installed, the unit provides two offsetting handrails that can be used to walk through and step on or off the ladder.

The patented Safe-T™ Ladder also helps workers comply with OSHA standard 1926.1053(b)(1) which states: "When portable ladders are used for access to an upper landing surface, the ladder side rails shall extend at least 3 feet above the upper landing surface to which the ladder is used to gain access." Meets OSHA standard 1926.502(b)(3) and OSHA standard 1926.1053(b)(1) as well as ANSI standard 14.2 section 8.3.3.

NEW

BASEMATE LADDER LEVEL SYSTEM

Part#	Description	Weight
10800	Safe-T™ Ladder Extension System	15.00
10804	6-Pack Safe-T™ Ladder Extension System Display Box	90.00
