

INSTALLING THE CO₂ CYLINDER

INSTALLING THE CO₂ CYLINDER

1. Place the FIZZI™ Sparkling Water Maker on a flat sturdy surface in an upright position. Remove the back cover by pressing on the top of the back cover and pulling it away from the body of the Sparkling Water Maker. Set the back cover aside.
2. Remove seal and cap from the SodaStream CO₂ cylinder. Tip the Sparkling Water Maker forward and insert the cylinder through the hole in the base and upward to the cylinder holder at the top of the Sparkling Water Maker.
3. Return the Sparkling Water Maker to the upright position with the cylinder valve inside the cylinder holder. Screw the cylinder valve thread into the cylinder holder and twist. Hand-tighten only; DO NOT use tools.
4. Reinstall the back cover by fitting the upright tab at the bottom of the back cover into the slot at the rear of the base of the Sparkling Water Maker and pushing the cover into place onto the back of the Sparkling Water Maker. Now you are ready to create the bubbles.

FOR YOUR SAFETY

SAVE THESE INSTRUCTIONS AND PROVIDE THEM TO ANY SUBSEQUENT USERS.

⚠ It is important that you read and understand all use and care instructions and the important safety information before using the Sparkling Water Maker to prevent personal injury and to prevent damage to your Sparkling Water Maker.

GENERAL WARNINGS:

- ⚠ **WARNING:** Misuse of your Sparkling Water Maker may result in serious personal injury.
- ⚠ **WARNING: DO NOT** use your Sparkling Water Maker if it is not in its upright position.
- ⚠ **WARNING: DO NOT** use your Sparkling Water Maker for anything other than carbonating water. Use of this Sparkling Water Maker for any unintended purposes may result in serious personal injury.
- ⚠ **WARNING:** Use your Sparkling Water Maker on a flat, stable surface away from heat sources.
- **DO NOT** place your Sparkling Water Maker on a hot surface (e.g. kitchen oven/stove/ hob) and never use it close to a flame.
- The carbonating bottle must be properly in place before operating your Sparkling Water Maker.
- **DO NOT** move your Sparkling Water Maker during the carbonation process.
- **DO NOT** remove the carbonating bottle during the carbonation process.
- To reduce the risk of personal injury or property damage, any servicing or repair should be performed by a SodaStream-authorized service representative.
- Close adult supervision is necessary when your Sparkling Water Maker is used by children and it is not recommended for use by children under 12.

- Rinse the carbonating bottle with cold or lukewarm water before first use.
- ⚠ **WARNING:** ADD FLAVOR ONLY AFTER CARBONATION.
- ⚠ **WARNING: DO NOT** carbonate into an empty bottle.

PLASTIC CARBONATING BOTTLE

- ⚠ **WARNING:** Unless the SodaStream carbonating bottle is identified by a prominent 'Dishwasher-Safe' marking, YOU SHOULD NEVER WASH IT IN THE DISHWASHER, NEVER WASH OR RINSE IT IN HOT WATER OR OTHERWISE EXPOSE IT TO HEAT ABOVE 50°C (120°F).
- ⚠ **WARNING:** These safety restrictions apply to both the regular and dishwasher-safe plastic carbonating bottles: **DO NOT** place the bottle next to a heat source such as your kitchen oven/stove/hob. **DO NOT** leave the bottle in your car. **DO NOT** place the bottle in the freezer or in extreme cold below 1°C (34°F). Doing so will compromise the integrity of the carbonating bottle material and may result in serious personal injury.
- ⚠ **WARNING: DO NOT** use a carbonating bottle if changes in shape have occurred, as that indicates the bottle is damaged. **DO NOT** use a carbonating bottle that is scratched, worn, discolored, or damaged in any way. Recycle or dispose of it and replace with a new one.
- ⚠ **WARNING:** SodaStream carbonating bottles are clearly marked with an expiration date near the bottom of the bottle. **DO NOT** use a carbonating bottle after its expiration date. Recycle or dispose of an expired bottle and replace with a new one.
- ⚠ **WARNING: DO NOT** carbonate with any bottle not specifically designed to work with this Sparkling Water Maker. Use only original SodaStream bottles.
- Fill the carbonating bottle with cold water only up to the fill line.
