

USE & CARE INSTRUCTIONS

1. Using the Product

- Follow all safety guidelines.
- Operate the product gently and avoid excessive force.
- Use only approved accessories or attachments.

2. Cleaning Instructions

- **Daily/Regular Cleaning:**
Wipe surfaces with a soft, damp cloth.
- **Deep Cleaning:**
Use mild soap and water. Dry thoroughly afterward.
- **Avoid:**
 - Harsh chemicals
 - Abrasive pads
 - Submerging electrical components

3. Maintenance

- Inspect screws, bolts, and structural components every 1–3 months.
- Lubricate moving parts when necessary (if applicable).
- Replace worn components immediately to prevent further damage.

4. Storage

- Store in a cool, dry area away from direct sunlight.
- For seasonal or occasional products, disassemble if needed for compact storage.

5. Troubleshooting Guide

Issue	Possible Cause	Solution
Wobbling or instability	Loose hardware	Tighten bolts/screws
Difficulty using moving parts	Misalignment	Adjust and re-tighten
Noise during operation	Unsecured part	Inspect and secure components
Electrical malfunction	Outlet or wiring issue	Check power source; consult a technician
