

FAQ

Rain-X Original Glass Treatment

Model # 800002250

Can Rain-X® Original Glass Treatment be used on house glass windows?

Rain-X® Original Treatment can be used on home glass windows; however, avoid contact with vinyl and aluminum surfaces near the window.

When Rain-X® Original Glass Treatment is removed from the windshield, why does it look like the product is still present?

It is possible the Rain-X® Original Glass Treatment was not completely removed from the glass.

How long will a Rain-X® Original Glass Treatment application last?

This product typically lasts about 3 months depending on weather and environmental conditions.

If you get Rain-X® Original Glass Treatment on your paint, will it ruin the paint?

No, but you should rinse the product off with soap and water.

Is Rain-X® Original Glass Treatment safe to use on solar panels?

No. Rain-X® Original Glass Treatment is not recommended for use on solar panels.

Can I use Rain-X® Original Glass Treatment on my shower door?

Yes. Rain-X® can be used on glass shower doors without any etching to achieve the benefits of Rain-X® water beading in the shower. Rain-X® should not be used on plastic shower doors.

Is Rain-X® Original Glass Treatment safe to use on plastics, motorcycle windshields, and ATVs?

No. This product is intended for automotive glass applications.
