Important Information

- Observe all local plumbing and building codes.
- Cover the sink drain to avoid losing any parts.
- Review all the warnings, care, and maintenance information.

Warranty

LIMITED LIFETIME WARRANTY

Glacier Bay products are manufactured with superior quality standards and workmanship and are backed by our limited lifetime warranty. Glacier Bay products are warranted to the original consumer purchaser to be free of defects in materials or workmanship. We will replace FREE OF CHARGE any product or parts that prove defective. Simply, return the product / part to any of The Home Depot retail locations or call 1-855-HD-GLACIER (1-855-434-5224) to receive the replacement item. Proof of purchase(original sales receipt) from the original consumer purchaser must be made available for all Glacier Bay warranty claims.

This warranty excludes incidental/inconsequential damages and failures due to misuse, abuse or normal wear and tear. This warranty excludes all industrial, commercial & business usage, whose purchasers are hereby, extended a five year limited warranty from the date of purchase, with all other terms of this warranty applying except the duration of warranty.

Some states and provinces do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights that vary from state to state and province to province. Please see a store or contact 1-855-HD-GLACIER for more details.

Pre-Installation

PLANNING INSTALLATION

Before beginning the installation of this product, ensure all parts are present. Compare parts with the Part List. If any part is missing or damaged, do not attempt to install the product. Contact Customer Service for replacement parts.

sealant

Pre-Installation (continued)

PART LIST

Part	Description	Quantity
A	Faucet Assembly	1
B	O-ring	1
C	Gasket	1
D	Lock Nut	1
E	Weight	1
F	Supply hose	2

Installation

1 Assembling the faucet

- Connect the supply hose (F) accordingly to the red and blue label on the faucet.
- Insert the faucet body into the hole in the countertop or sink.

2 Installing mounting hardware

- Insert O-Ring(B), gasket(C) and lock nut(D) from underneath the countertop to the faucet and tighten it.

3 Attaching the quick connector to outlet hose and install the weight

- Push the quick connector of spray hose firmly upward and attach it to the receiving block of outlet hose. Push until a "Click" is heard.
- Install the weight (E) on the weight here label position.

4 Making the water supply connections

CAUTION: The hot and cold inlet tubes are indicated by their colors: red means hot and blue means cold. Avoid twisting wires together or placing the wires close to each other and damaging.

- Thread the nut on the supply hose (F) onto the outlet of the water supply valve and tighten with a wrench. Do not overtighten.

Care and Cleaning

- ☐ To clean, wipe down with a damp cloth and dry with a towel.
- ☐ Do not use abrasive cleaners, steel wool, or harsh chemicals when cleaning this faucet, or the warranty will be voided.

Troubleshooting

NOTE: Refer to the service parts on the website for a detailed drawing showing the location of the parts listed below.

Problem	Possible Cause	Solutions
There are leaks underneath the handle.	The screw nut has come loose and the o-ring on the cartridge is dirty or damaged.	<input type="checkbox"/> Tighten the screw nut. Clean or replace the cartridge or o-ring.
The aerator leaks or has an inconsistent water flow pattern.	The aerator is dirty or misfitted. The cartridge may be clogged.	<input type="checkbox"/> Remove the aerator and check for debris in the aerator screens. <input type="checkbox"/> Remove the cartridge and check for debris. <input type="checkbox"/> Ensure the aerator is properly installed.
There are leaks from the hose underneath the deck.	The supply hose and outlet hose connection may be loose.	<input type="checkbox"/> Tighten the connection of the hoses.
The hose does not retract.	The weight is not installed in the appropriate position.	<input type="checkbox"/> Reinstall or readjust the weight.
The water pressure is low.	The connector underneath the deck is clogged with debris. The aerator is clogged.	<input type="checkbox"/> Turn off the water supply and disconnect the connector / aerator. <input type="checkbox"/> Unscrew the connector / aerator and clean under running water. <input type="checkbox"/> Screw the connector / aerator back. <input type="checkbox"/> Test water flow. If water pressure is still low then replace the connector / aerator.
There is no hot or cold water.	The water supply hose was accidentally kinked during installation and is limiting the water flow through.	<input type="checkbox"/> Reinstall the water supply hose.
