

MN14CHCSWW

COOLING CAPACITY

ASHRAE BTU 14,000 BTU

DOE BTU¹ TBC

The Honeywell MN Series portable air conditioner has a modern design cooling areas up to 700 Sq.ft. with 4-in-1 technology, this portable air conditioner delivers optimum cooling, heating and dehumidification. It also has a fan-only function. The full-function remote control allows you to operate each feature from across the room.

Unlike a fixed AC, this unit requires no permanent installation and four caster wheels provide easy mobility between areas. Plus, the auto-evaporation system allows for hours of continuous operation with no water to drain or no bucket to empty. This model comes with everything needed including two flexible exhaust hoses and an easy-to-install window venting kit. The window vent can be removed when the unit is not in use.

Product Dimensions (in): 18.1 (L) 15.2 (W) 29.3 (H)
Net Weight: 79.4 lbs / 36 kg

Quick and Easy Installation -
Save Time, Save the Heavy Lifting

TBC

Adjustable Temperature
61°F to 89°F (16°C to 32°C)

Single Hose

Find out more about portable air conditioners:
www.honeywellportableac.com

¹ In October 2017, the Department of Energy implemented a new test procedure which takes different factors into account and generates a lower BTU rating of portable air conditioners to indicate capacity. However, the actual capacity has not changed - the difference is simply due to the different test procedure. There have been no internal changes to these units, and the functionality remains the same. Please refer to room size guidelines to find the portable air conditioner that best meets your needs. Please also refer to the Aham website.

* All specifications mentioned are under test conditions, actual performance depends on ambient conditions. Specifications may vary in different countries and subject to change without prior notice.

Except in very high humidity conditions.
