

Product Manuals

Installation procedure:

A: Unscrew the screw , remove the mounting bracket , and then fix the mounting bracket on the junction box with the screw ;

B: Connect the black wire of the lamp body wire with the live wire of the external power supply, and the white wire with the neutral wire of the external power supply with wiring granules . Note that the live wire/neutral wire should not be exposed to avoid leakage of electricity. The ground wire and the external ground wire are connected tightly to the mounting bracket with green screws ;

C: Lock the canopy on the mounting bracket with a screw

Warranty Policy :

1.Beginning from the date of delivery, purchased products include a 1 year warranty.

Notice:

1. Before installation, please check whether the parts are complete and whether the lamps are in good condition.
2. Cut off the power supply before installation, and then perform wiring.
3. Install the lamp body first, and then install the power supply.
4. Installation and maintenance must be carried out by professional and technical personnel.

Product Specifications:

Material: Metal

Voltage Range: 110V

Power Supply: Hardwired

Components Included: Mounting Hardware

When paired with a dimmer switch and dimmable bulb (both not included), the light fixture can be dimmable.
