

The [10" Garage Organization Wall Hooks](#) are designed for easy installation and come with all necessary hardware.

What's Included:

- 4 heavy-duty wall hooks (10" each)
- 8 wood screws
- 8 wall anchors

Installation Instructions:

For Wood Surfaces:

1. Mark desired hook positions on the wall
2. Use the included wood screws to mount directly into wood studs or backing boards
3. Turn the screw end against the wood and tighten until snug

For Drywall/Plasterboard:

1. Mark hook positions and pre-drill holes
2. Insert the included wall anchors into the holes
3. Secure hooks using the provided screws through the anchors

For Brick/Concrete Walls:

1. Pre-drill holes using appropriate masonry bit
2. Insert wall anchors
3. Mount hooks with screws

Safety Tips:

- Always wear gloves during installation
- Ensure proper anchor size for your wall type
- Test weight capacity gradually after installation

Many customers recommend using stronger screws than those included for heavy-duty applications, as the provided screws can sometimes strip during installation into harder surfaces.
