STEP 2 Parts:

4XA 2XC 4X2 6X4

This forms the next level. Once completed build the next level with parts listed in step 3.

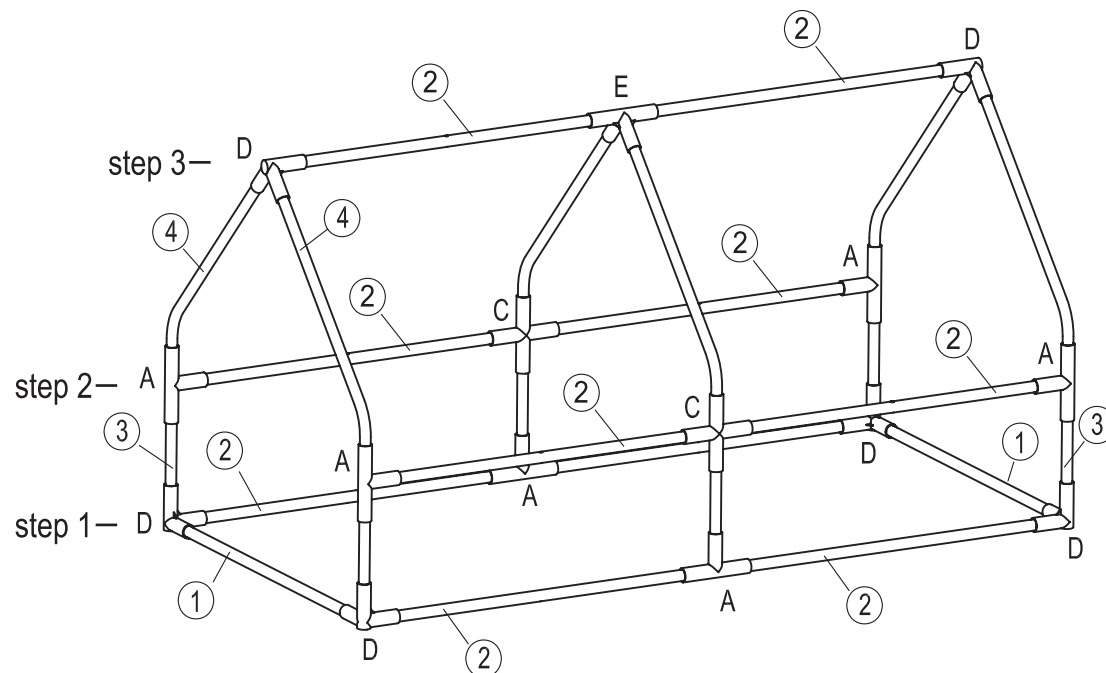

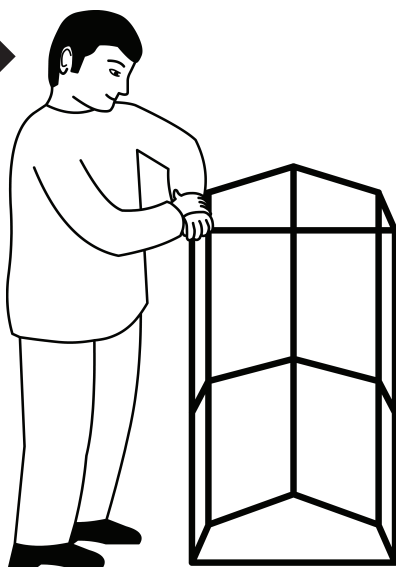

STEP 3 Parts:

2XD 1XE 2X2

This forms the final level. Once completed place the cover over the frame and attach.

STEP 4 Parts:

In order to have the frame connected you will need to assemble the frame by pushing downward while connecting two rods at a time, giving it an extra force (when frame is complete repeat from all angles, as picture shown). This will result in a tighter and smaller frame enabling the greenhouse cover to slide on easily.
