

## Dark Natural Buffet

MFG # YFUR-HK1126

Congratulations on your recent purchase from YHD! In order to ensure that your furniture maintains its attractive appearance, proper and preventative maintenance goes a long way. Here are a few tips and tricks in order to help you do so:

**Wood Care:** Use coasters, placemats, or trivets to help prevent marks or stains. Do not directly place any hot items on the surface, this will help protect the product's fresh look.

**In Case of:**

- A scratch or small ding: Dab at the site with a proper wood repair marker a shade lighter than the actual color until it matches the finish. A simple and quick way to fix little mishaps.
- A spill: Wipe up immediately with a slightly damp cloth. Avoid common cleaners which contain lemon and silicone often times they can cause harm to the woods finish.

**Routine Maintenance:** Wipe the wood with a dry soft cloth once a week, in order to prevent dust from accumulating. You can also wipe down the wrought iron legs with mild soap and water, followed by a drying towel to keep them in pristine shape.
