

## AUTHENTIC MODELS – CARE INSTRUCTIONS

All Authentic Models' products are made by artisan craftsman with a high attention to detail and quality materials. Many products are designed with distressed or weathered surfaces and/or features to represent the time period from which the original product(s) were used around the world. Please follow the care instructions below:

- Authentic Models' products are designed for indoor use or limited outdoor use weather permitting. Products should not be left outdoors during inclement weather conditions.
- Surfaces may be cleaned with a damp cotton cloth followed by a dry cotton cloth to wipe away excess moisture on the surface of the product.
- Residential furniture polish/spray may be used on wood surfaces to brighten and protect the product.
- Residential leather polish/spray may be used on leather surfaces to brighten and protect the product.
- Residential metal polish/spray may be used on metal surfaces to brighten and protect the product.
- Do NOT clean products with abrasive cloth and/or corrosive cleaning agents.
