HERE'S HOW TO TAKE CARE OF ME

Fern

LIGHT

I grow best near a sunny window; at most 5 feet away. Direct sunlight will burn my leaves.

WATER

Water me when the top couple inches into the soil are dry, I prefer above average humidity levels. Allow water to drain thoroughly; remove any excess water.

FOOD

Feed me once or twice a year during Spring and Summer with a fertilizer formulated for houseplants.

FEATURES

I have graceful, green foliage that can purify the air and I am super easy to grow.

GROWING TIPS

If it dries out too much, the fronds turn brown and crispy. Keep away from heat ducts or radiators that might dry them out.

GIVE ME FRIENDS

(I play well with)

Nerve Plants and Bromeliads
