

A Simple, Effective, Long-Lasting Solution To Air Infiltration.

A good percentage of a building's heat loss is directly attributable to air infiltration. A significant part of this loss can be prevented by using ProPink ComfortSeal™ Sill Gasket. ProPink ComfortSeal™ Sill Gasket is a premium product, designed to fill the gap between the sill plate and the foundation wall for a tight, uniform fit.

Certifications and Sustainable Features

■ ProPink ComfortSeal™ Sill Gasket is GREENGUARD Certified. GREENGUARD Certified products are certified to GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit ul.com/gg*

Product Attributes

- Reduces Drafts ProPink ComfortSeal Sill Gasket helps eliminate air leakage around the foundation sill, saving on heating and cooling costs*
- Resists Moisture ProPink ComfortSeal Sill Gasket is made from polyethylene foam which helps resist moisture movement from the foundation wall into the wooden structure
- Insect Resistant ProPink ComfortSeal[™] Sill Gasket acts as a barrier to insects, helping to seal them out of the structure
- Packaging Dimensions ProPink ComfortSeal[™] Sill Gasket is available in convenient 50 ft. rolls in a choice of 3 widths to fit standard frame construction
- Installs quickly and easily, with no special tools
