Effortless Chemical Free Water Care

HOSE filter

advanced water purification

Instructions:

1. Flush garden hose before use to remove contaminants.
2. Remove and save caps for storage (don not allow filter to dry out).
3. Attach filter and flush for one minute until water runs clear.
4. For highly contaminated water, reduce flow rate.
5. If flow rate slows, back-flush to remove clogging. (see product documentation for complete instructions)

Suggested Uses:
Hot Tub/Spa filling
Pool Filling
Gardens
Ponds
Fish Tanks
Washing Vehicles
