

Uninterruptible Power Supply

# APC Back-UPS Pro

Premium battery backup and surge protection.

Models:  
BN1100M2  
BN1350M2  
BN1500M2

The new APC Back-UPS Pro models provide premium battery backup and surge protection. Ideal for small or home office electronics, networking devices, gaming PCs and consoles. APC Back-UPS Pro models provide sine wave output, USB charging ports for your mobile devices, and increased runtime for your critical electronics.

## Features and Benefits

- 01 Angled LCD (Liquid Crystal Display)**  
Quick and easy information on the utility and UPS status.
- 02 2 USB Charging Ports (Type A + Type C)**  
Maximize charging speeds and simultaneously charge multiple devices.
- 03 Automatic Voltage Regulation (AVR)**  
Instantly corrects voltage fluctuations in utility power.

- 04 ENERGY STAR®**  
This label ensures that products are independently certified as highly energy efficient, which will save money year after year.

- 05 PowerChute Software**  
Allows to access additional power protection and management features:
  - Preserves the work, shuts down system during outages
  - Restarts the system, compactizing work disruptions
  - Enables customization of Back-UPS settings
  - Monitors and displays power and battery status
- 06 User-replaceable and Hot-swappable batteries**  
Increase availability by replacing the battery and ensure clean uninterrupted power to equipment during replacement.
- 07 Active PFC compatibility**  
Compatible with high-end PCs and gaming consoles that have active PFC power supply.

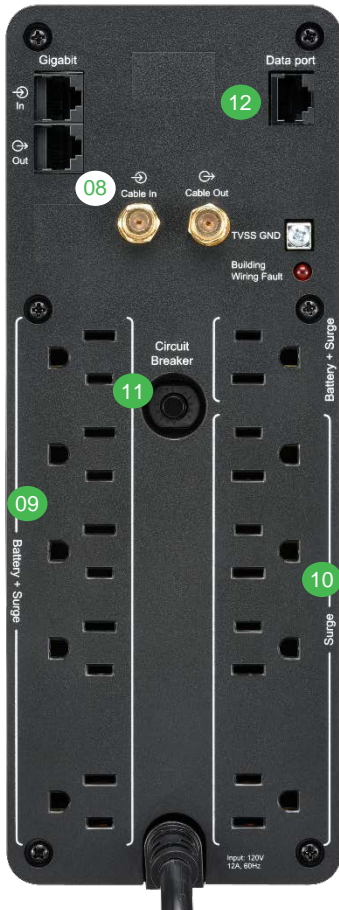

### Parameters Displayed:

- Input Power (On Battery/On Utility)
- Input Voltage
- Output Voltage
- Output Frequency
- Load (Watts, % of Capacity, Graphic Display)
- Overload
- AVR Working
- System Fault
- Replace Battery
- Battery Charge Status (Graphic Display)
- Estimated Run Time
- Power Saving Mode (Enabled/Disabled)
- Mute (Enabled/Disabled)
- Number of Power Events

Life Is On

**APC**  
by Schneider Electric

08 1Gb network dataline protection and coax protection

09 Battery Backup & Surge Protected outlets  
Keep critical devices running when the power goes out or fluctuates beyond safe levels.

10 Surge only outlets  
Protect electronics without reducing battery capacity.

11 Push-button circuit breaker  
Allow quick recovery from overloads and eliminates the need for fuse replacement.

12 USB communication port

10 Outlets  
(6) Battery Backup Outlets  
(4) Surge protection only outlets

Surge Energy Rating:  
1080 Joules

Power goes out. You stay connected to what matters most.

### Estimated Runtime

	Watt load	BN1100M2	BN1350M2	BN1500M2
Notebook computer + network gateway + internet modem and router	79W	64 Min	69 Min	83 Min
Mid-range PC + 20" LCD + notebook network gateway + internet modem and router	119W	41 Min	46 Min	56 Min
Gaming PC with 24" LCD monitor + external powered speakers + internet modem and router	240W	18 Min	20 Min	25 Min
42" LCD television + game console system (Xbox or PlayStation)	335W	11 Min	13 Min	17 Min

\* Approximate power - Note: autonomy times are average and may vary depending on load power, ambient temperature, charge level, and battery life.

Ideal for high performance electronics, such as:
