

# E-Z Protect™ Tree Trunk Protector

## Installation Guidelines

For sapling trees measuring less than 4" diameter, uncoil E-Z Protect™ and place around base of tree trunk, with tapered end down, touching the ground.

For mature trees measuring more than 4" diameter, combine two or more E-Z Protect™ as needed, and place the combined E-Z Protect™ around base of tree trunk, with tapered end down, touching the ground.
