

HOMEPOP

a Kinfine brand

Keep your statement piece alive.

You've put a lot of care into making your home your statement. With ongoing care, these accent pieces should last with your style for years to come. Here are a few tips to help you keep your home looking its best.

- Indoor use only.
- Spot clean as needed. Try not to leave spills unattended.
- If possible, keep away from direct sunlight to avoid premature fading.
- From time to time, you may need to tighten legs – hold on to your handy toolkit!

Upholstery care

Blot the area with a damp, absorbent cloth as quickly as possible after a spill. Mild, water-free solvents are ideal. If there are no spills and you want an overall clean, test with a small area, unnoticeable area first. Fabric protectants and fresheners are not recommended.
