

CHEFMAN™

RJ11

CORDLESS ELECTRIC KETTLE

Attractively housed in brushed stainless steel, this Chefman Electric hot-water Kettle makes a striking presence on any kitchen counter or buffet. Use it to quickly bring up to 1-1/2 liters of water to a rolling boil for making anything from tea, instant coffee, hot cocoa, oatmeal, instant soup, noodles, and more. The kettle lifts off its 360-degree swivel base for easy filling at the sink or for graceful serving without the hassle of a power cord; it can also be returned to its power source from any direction – great for right – and left-handed users.

For safety, the kettle shuts itself off automatically once the water has reached a boil – no need to worry about it boiling dry. Other highlights include a comfortable stay-cool handle, a non-drip pouring spout, a flip-back lid for convenient filling or cleaning.

SPECIFICATIONS:

Unit Cube: 30
Unit Weight: 2.20
Unit Dimension: 8.5x8x7.5
Voltage: 120v 60Hz 1000W
Testing Approval: CETL

BOILS WATER FASTER THAN MICROWAVE OR STOVETOP METHODS
