Assembly Steps

OVER VIEW

This Chair has multiple parts and may require up to some 30 minutes to assemble. To give you an overview of the Chair, the above picture is to help you put the various parts into perspective. Please read through the instructions here below to familiarise the parts and steps before assembly.

Step 1

The best place to assemble this Armchair is on a flat surface, eg., floor.
Position Parts Backrest (A) and Seat Panel (C) as shown in picture above.

Affix 1st Right Arm Panel (B1) (facing skywards), as shown above.

Attach Arm Panel(B1) and Backrest Panel(A) by using 1 Screw(2)+Allen Key(4)

Attach Arm Panel(B1) and Seat Panel(C) by using 2 Screws(1)+Allen Key(4)

Then, flip chair to rest on 1st Arm(B1) so that 2nd Arm (B2) is now facing skywards.
Repeat the same process by affixing Screws to designated points.

CAUTION: DO NOT TIGHTEN SCREWS

Step 2

Use Bolt (3) with Allen Key (4) to affix the top of the Backrest to the Armrests on both sides as shown.

DO NOT TIGHTEN BOLTS

Step 3

BACK VIEW OF CHAIR.

Use Screw (②) and Allen Key (④) to attach Backrest Panel(A) and Seat Panel(C).
DO NOT TIGHTEN SCREWS

Step 4

Turn the Chair right side up.
Inspect it and make sure all parts are adequately connected.
Ensure all bolts and screws are fully locked into position and secured.
The Chair is ready to be used.
This Chair can only be used on a flat, level surface.

Questions & Answers about Proposition 65

- What is Proposition 65?

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals.

Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

Proposition 65 requires California to publish a list of chemicals known to cause cancer, birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 900 chemicals since it was first published in 1987.

- What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

- What does a warning mean?

If a warning is placed on a product label or posted or distributed at a workplace, a business, or in rental housing, the business issuing the warning is aware or believes that it is exposing individuals to one or more listed chemicals.

By law, a warning must be given for listed chemicals unless the exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.
