

Gas Logs For Every Hearth

1

Determine Log Type

Large logs cast from real wood

VENT-FREE

- No chimney or flue required
- Operates at 99% efficiency
- All of the heat enters your home allowing you to turn down your furnace and save on heating costs

VENTED

- Requires chimney for ventilation
- Taller, more realistic flame presentation
- Most heat is lost through the vent and is primarily for decorative purposes

Southern Oak Series

Dual Burner System
Provides two rows of flames for a more full looking fire.

Logs Inspired By Nature
Offers some of the most impressionable concrete logs on the market.

Includes Lava Rock (LVR100)
Creates a realistic rock bed, adds depth & realism to gas logs, and can also be used to hide mechanics.

Battery Assisted Ignition
Just push a button to start. Requires 1 AAA Battery (included).

Thermostatic Controls
Conveniently control and maintain desired room temperature.

Wildwood Series

Dual Burner System
Provides two rows of flames for a more full looking fire.

Logs Inspired By Nature
Offers some of the most impressionable concrete logs on the market.

Includes Lava Rock (LVR100)
Creates a realistic rock bed, adds depth & realism to gas logs, and can also be used to hide mechanics.

Battery Assisted Ignition
Just push a button to start. Requires 1 AAA Battery (included).

Thermostatic Controls
Conveniently control and maintain desired room temperature.

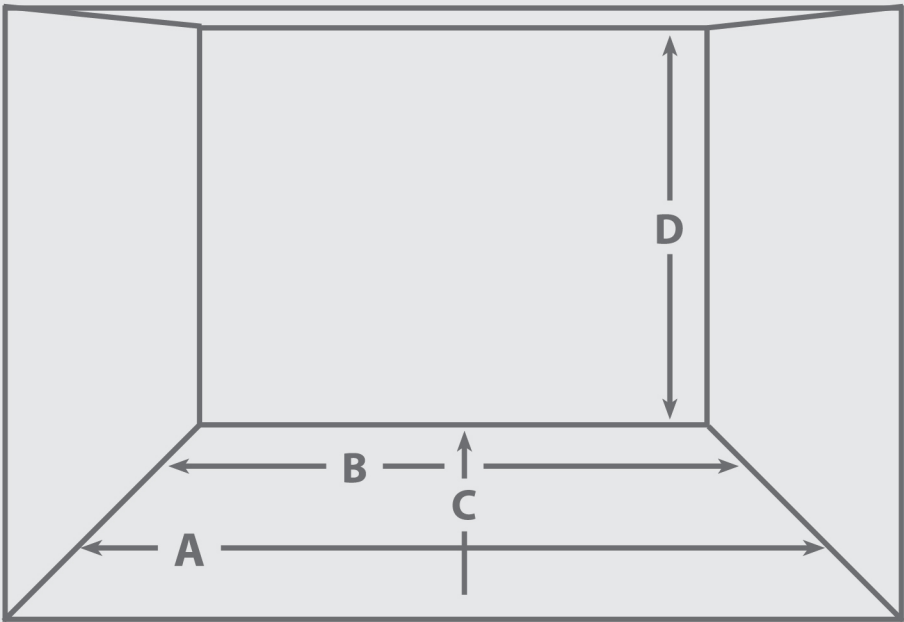

2

Determine Log Size

Always use a pre-approved firebox

Firebox Dimensions

A - Front Width
B - Rear Width
C - Depth
D - Height

Valley Oak Series

Dual Burner System
provides two rows of flames for a more full looking fire.

Logs Inspired By Nature
Offers some of the most impressionable logs on the market.

Include 2-in-1 Thermostatic Remote
Works as an ON/OFF switch or a programmable thermostat.

Ember Fiber Burning Pan
This 3rd burner pan holds Glowing Ember Fibers, which simulates a real wood burning fire.

Thermostatic Controls
Conveniently control and maintain desired room temperature.

Includes Lava Rock (LVR100)
Creates a realistic rock bed, adds depth & realism to gas logs, and can also be used to hide mechanics.

Includes Glowing Ember Fibers (GEF100)
Creates the illusion of a realistic burning ash bed.

Battery Assisted Ignition
Just push a button to start. Requires 1 AAA Battery (included).

VENT-FREE				
Log Size	Minimum Firebox Dimensions			
	Rear Width	Front Width	Depth	Height
18-in Southern Oak	20-in	28-in	14-in	24-in
24-in Southern Oak	22-in	32-in	14-in	24-in
24-in Valley Oak	22-in	32-in	15-in	24-in
30-in Valley Oak	24-in	36-in	15-in	24-in
18-in Wildwood	20-in	28-in	14-in	24-in
24-in Wildwood	22-in	32-in	14-in	24-in

VENTED				
Log Size	Minimum Firebox Dimensions			
	Rear Width	Front Width	Depth	Height
18-in Arlington Ash	24-in	24-in*	15-in	19-in
24-in Arlington Ash	26-in	30-in*	15-in	19-in
30-in Arlington Ash	32-in	36-in*	15-in	20-in
18-in Willow Oak	24-in	24-in*	15-in	19-in
24-in Willow Oak	26-in	30-in*	15-in	19-in
30-in Willow Oak	32-in	36-in*	15-in	20-in

*Check state and local codes for permitted use before purchase

*Important: If adding a Liquid Propane Conversion Safety Pilot Kit to the burner, 8" needs to be added to the front width dimension.

3

Choose Accessories

Log sets include accessories that are “for use with”

Product	Description	For Use With
Vermiculite VMC100	Helps spread gas throughout the burner pan for a more even flame	
Lava Rock LVR100	Increased ambient effect to your gas log set	 
Glowing Ember GEF100	Provides the same effect of a glowing bed of ashes in a wood burning fire	 
Liquid Propane Conversion Safety Pilot Kit SPK100	Allows the use of Liquid Propane as a fuel type	

Willow Oak Series

Dual Burner System
provides two rows of flames for a more full looking fire.

Logs Inspired By Nature
Offers some of the most impressionable concrete logs on the market.

LP Convertible (SPK100)
Optional LP Conversion Kit Allows usage of Propane as a fuel & adds a piezo ignitor instead of match lit ignition.

Includes Lava Rock (LVR100)
Creates a realistic rock bed, adds depth & realism to gas logs, and can also be used to hide mechanics.

Includes Glowing Ember Fibers (GEF100)
Add realism to gas logs & creates the illusion of a realistic burning ash bed.

Includes Vermiculite (VMC100)
Spreads gas evenly throughout the entire burner pan for a more full flame pattern and well-fueled fire.

Arlington Ash Series

Dual Burner System
provides two rows of flames for a more full looking fire.

Logs Inspired By Nature
Offers some of the most impressionable concrete logs on the market.

LP Convertible (SPK100)
Optional LP Conversion Kit Allows usage of Propane as a fuel & adds a piezo ignitor instead of match lit ignition.

Includes Lava Rock (LVR100)
Creates a realistic rock bed, adds depth & realism to gas logs, and can also be used to hide mechanics.

Includes Glowing Ember Fibers (GEF100)
Add realism to gas logs & creates the illusion of a realistic burning ash bed.

Includes Vermiculite (VMC100)
Spreads gas evenly throughout the entire burner pan for a more full flame pattern and well-fueled fire.

Gas Log Benefits

Advanced Burner

More BTUs provide a taller, more realistic flame presentation

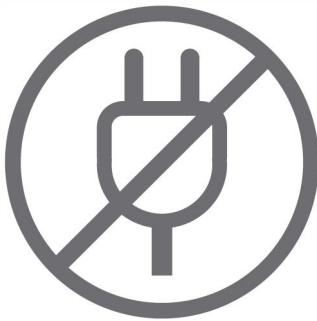

Thermostat Controls

Conveniently control and maintain desired room temperature

Zone Heating

Cut cost by putting heat where you need it

No Electricity Required

Perfect for emergency heat during a power outage
