THICK, DARK GREEN TURF WITH **LESS WORK**

MVS®
MOUNTAIN VIEW SEEDS
GUARANTEED TO GROW

PROFESSIONAL GRADE
GRASS SEED

MIDWEST MIX

OUT-PERFORMED LEADING BRAND
IN NTEP TURF QUALITY SCORES*

DARK GREEN LAWN
BEAUTIFUL COLOR WITH **LESS FERTILIZER**

BETTER DURABILITY
HEALTHIER LAWN WITH **LESS WATER**
VS. STANDARD NTEP VARIETIES

NET WEIGHT 20 LBS (9.07 KG)
COVERS UP TO 6,600 SQ FT (613.2 SQ M)

WaterGard® NP™
ENHANCED WITH A COMPLETE NUTRIENT PACKAGE

PREMIUM SEED + WATERGARD®NP™
Absorbent coating provides 2X WATER RETENTION
Establishes STRONGER ROOTS for a VIGOROUS LAWN

THICK, DARK GREEN TURF WITH **LESS WORK**

AN AMERICAN SEED COMPANY
FARMER OWNED

MVS
MOUNTAIN VIEW SEEDS

ALLIANCE FOR LOW INPUT SUSTAINABLE TURF
A-LIST®

Our research facility, **Peak Plant Genetics**, continually brings the highest quality turf to the industry. Varieties that require less water, less fertilizer, and provides a thicker, greener turf that is easier for the **Homeowner** to sustain. Developing the perfect variety can often take 8 - 10 years through careful selection – like a fine wine, it cannot be rushed. Once a variety has passed tests for finer blades, darker green color, drought resistance, insect resistance, and seed production standards, it is then released to one of our farmers for production.

PLANTING INSTRUCTIONS

TO PLANT NEW LAWN

- Follow the label instructions on any applied herbicide used before seeding.
- Plant in springtime after the last frost or in the fall (30 days before the first frost).
- The ideal soil temperature for planting cool-season grasses is between 60 and 80 degrees Fahrenheit.
- Plant in an area that can be maintained with moisture.

PREPARE SEEDBED

- Loosen the soil to a depth of 3 to 4 inches.
- Rake and smooth; remove rocks and debris.
- Apply fertilizer of choice per label directions.
- ***DO NOT apply weed and feed fertilizers for at least 6 weeks.***

PLANTING SEED

- Spread seed evenly. Use the "Spreader Settings" chart to determine the amount of seed needed to cover the area.
- Lightly rake or rollover area to cover seed with roughly 1/8" of soil.

TO OVERSEED EXISTING LAWN

- Mow grass on your mower's shortest setting. Then, remove all excess vegetation and scratch the soil to 1/2" depth. This will ensure good seed-to-soil contact.
- Follow planting instructions listed above.

SPREADER SETTINGS

	New Lawn or **Bare Spots** UP TO 2,200 SQ FT	**Overseeding** or **Reseeding** UP TO 6,600 SQ FT
SCOTTS® Drop Spreaders	**12** *go over **3x***	**12**
SCOTTS® Broadcast Spreaders	**10** *go over **2x***	**8**
SCOTTS® Hand Spreaders	**6** *go over **3x***	**6**

AFTER PLANTING CARE TIPS

WATERING

- Moisten soil to a depth of around 1 inch. For best results, keep the root zone moist by watering your new lawn 1 to 2 times daily (rainfall depending).
- Keep soil moist until the new lawn has fully germinated, 3 to 4 weeks.

Lack of proper watering is the most common reason lawns fail to establish!

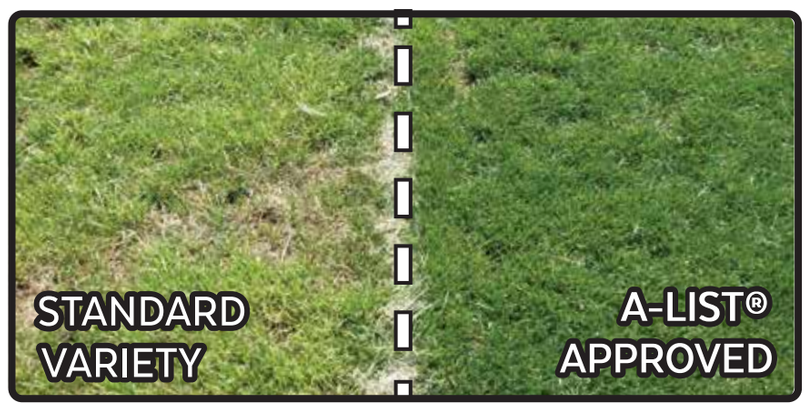

MOWING

- Do not mow your new lawn for the first time until the blades reach 3" tall.
- Remove no more than 1/3 of the blade.

NTEP

The National Turfgrass Evaluation Program (NTEP) is one of the most widely-known turfgrass research programs in the world. Information such as turfgrass quality, color, density, resistance to diseases and insects, tolerance to heat, cold, drought, and traffic is collected and summarized by NTEP annually. Plant breeders, turfgrass researchers, and extension personnel use NTEP data to identify improved environmentally sound turfgrasses.

** The data for this claim was derived by Mountain View Seeds from NTEP studies.*

SATISFACTION GUARANTEED:

This product is guaranteed to perform to your satisfaction or your purchase price will be refunded. Notice: Under seed laws of several states, arbitration, mediation or conciliation is required as a prerequisite to maintaining a legal action based upon the failure of seed to which this notice is attached to produce as represented. The consumer shall file a complaint (sworn for AR, FL, IN, GA, MS, SC, TX, WA; signed only CA, ID, ND, SD) along with the required filing fee (where applicable) with the commissioner/director/secretary of agriculture, seed commissioner, or chief agricultural officer within such times as to permit inspection of crops, plants, or trees by the designated agency and the seedman from whom the seed was purchased. A copy of the complaint shall be sent to the seller by certified or registered mail or as otherwise provided by the state statute.
