

# CROSSXSTEP

FIBERGLASS STEPLADDER

## THE GREATEST INNOVATION IN ELEVATION

We invented the Cross Step to change the way you work. And we created our exclusive LeanGreen technology to make it clear that your worksite is compliant. Because when it comes to innovative elevation, there's only one pioneer that's helping you get the job done. That designs, develops, and drives the advancements that others can only dream of. That casts the mold, that sets the standard. There's only one that's **Built to be Above.**
