

caring for your
money tree

MONEY TREE
Pachira aquatica

Money Trees have a way of offering a sense of calm to the environment. Not at all finicky, the care requirement for these slow-growing houseplants is minimal. Keep soil moderately moist, allowing the soil to dry on the surface before re-watering.

LIGHT

Filtered light, no direct sunlight.

WATER

Moderately moist soil, never soggy.

TEMPERATURE

65° - 75°F
18° - 23°C

FERTILIZER

Feed every 2 weeks with an all-purpose liquid plant food.
