4400lbs Loading Capacity

This double airbag jack can support up to, 4400 lbs/2T. And easily lift your small cars, family cars, minivans, SUVs and off-road vehicles, or other heavy objects.

4.3"-11.8" Lifting Range

It only takes 5 seconds to lift from 4.3"/110 mm to 11.8"/ 300 mm, the max. lifting height is suitable for most vehicles. Working Temp: -60°C~ 50°C.

Solid Construction

The thickened rubber and steel plate work together to make the lifting securer and more stable. And the combination also reduced the impact and led to precise lifting.

Easy Operation

There are three valves on this triple airbag jack: air input valve, air outlet valve, and safety valve, which can help you operate the jack securely and quickly.

NON-SLIP HANDLE

Easy to Store

The whole design is compact and easy to store. You can put it in your trunk and use it for any emergency. 2 carrying handles allow you to move it when in need.

Wide Application

The pneumatic jack lift is excellent for heavy lifting in auto shops, repair shops, household warehouses and is suitable for family cars, minivans, SUVs, off-road vehicles, etc.
