IMPORTANT SAFETY INTRODUCTIONS

Thank you for choosing our products. This owner's guide and any additional inserts are considered part of the product. They contain important information about safety, use and disposal. Before using the product, please familiarize yourself with all operating and safety instructions. Please keep all documents for future reference.

INTENDED USE

This product is intended to circulate the air in indoor and outdoor spaces. This product is not intended for commercial or industrial use. The manufacturer assumes no responsibility for damage or injury due to unauthorized use or product modification. Failure to follow these directions will void the product warranty.

WARNING: Risk to Children and Impaired Persons

Supervision is required during the installation, operation, cleaning and maintenance of this product by children and anyone with reduced physical, sensory or mental capabilities. Children should be supervised to ensure that they do not play with the appliance, its parts and packaging material.

WARNING: To Reduce The Risk Of Fire Or Electric Shock, Do Not Use This Fan With Any Solid-State Speed Control Device.

SAFE USE WARNING-To reduce risk of fire, electrical shock and injury to persons, observe the following:

This fan is designed to be powered by a 24 volt AC/DC power adapter or the Li-Ion battery pack built in the product. Do not attempt to use with any other power supply.

- When using this product, please refer to the description in this manual. Other unauthorized use may cause fire, electric shock or injury.
- Please put the fan out of children's reach. This product is not for children to use alone.
- Please turn off the fan when moving and leaving.
- Please place the fan on a horizontal, stable and stable surface to avoid overturning.
- When using the fan, do not put fingers, pens or other objects into the net cover.
- Unplug the power plug before cleaning the fan.
- Do not disassemble, modify or use for other purposes.
- Do not expose the battery to liquid, and do not let the battery suffer strong impact.
- Do not plug the charger into or out of the power socket with wet hands.
- Do not operate the fan without the protection of the mesh cover, as it may cause serious personal injury.

Safety Introductions

2

- If the charger or power cord is damaged, it must be replaced by the manufacturer or its service agent or a person with similar qualification to avoid danger.
- The charger provided by us is special, and no other charger can be used.
- Please do not use the charger provided by us to charge other products, because the charger is dedicated.
- In order to reduce the risk of fire or electric shock, please do not use any solid-state governor to control the fan.
- Before inserting the power supply, make sure that the voltage and frequency of the power supply are the same as those shown on the charger label.
- Do not put the fan in the fire, because there is battery in the fan, which may explode.
- The continuous charging time shall not exceed 24 hours, and the charger shall be unplugged after charging.
- Do not remove or modify the fan battery.
- The user is not allowed to dismantle and replace the internal parts of the fan at will. In case of any fault, the user must contact the after-sales service department for maintenance.
- Do not forget to shut down and charge.
- This product can only be charged indoors.
- Do not incinerate this fan and its batteries, even if it is severely damaged. The batteries can explode in a fire.
- Do not incinerate this fan, even if it is severely damaged. The batteries can explode in a fire. Dispose of the fan in accordance with the following instructions: (instructions for disposal of the product).

DISPOSAL

We actively encourage you to participate in the electronic recycling program, so please properly dispose of waste electronic products in accordance with local regulations, and do not treat the products as household garbage.

FCC Consumer Advisement

This equipment may generate, use and/or radiate radio frequency energy that may cause harmful interference to radio communications. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

Safety Introductions

Product Description

Adjusting Fan Angle

To adjust the fan angle, grasp fan by the back handle and tilt fan forwards or backwards. The fan can pivot to a range of 120°.

Product Description

Power Indicator Light

There are 5 LED lights to indicate the battery gauge in every 20%. The light will blink if battery is in charging status. When battery is fully charged, all lights will be on and stop blinking. When battery power is between 20% - 40%, the first indicator light will leave in red to remind recharging. When battery power is below 20%, all lights will be off, please use the power charger to recharge.

Rotary Switch

To turn the fan On, rotate the switch from "off" to "I". This fan has a variable speed setting. Rotate the switch clockwise (+) or counter clockwise (-) to adjust the speed. To turn the fan Off, return the control switch to "off".

Power Supply Jack

When used with the power charger, connect the power cord with the power supply jack, plug the charger to a suitable electrical outlet.

USB Charging Port

The USB charging port on the control box can be used to recharge digital devices such as smart phones (USB cable NOT included). The output of USB port is 5V 1A.

How To Use

6

Clean and Maintenance

Before cleaning, firstly discharge the battery until the fan does not run, make sure it is not in the state of charging and unplug. Do not use gasoline, thinners, solvents, ammonias or other chemicals for cleaning. Pay attention not to collide with the fan blade and change the angle of the fan blades.

Cleaning the grill

Always turn off the fan and disconnect power supply from fan before cleaning. Clean fan grill periodically with a vacuum cleaner.

Maintenance

When the product is not used, it shall be placed in a dry and ventilated environment. When the product is not used for a long time, it shall be fully charged within 3 months.
