

## Debris Netting Installation

# Suggested Installation Method

For Vertical Protection on Open Sides of Buildings

The suggested installation methods depicted and described above may not be appropriate in all circumstances, as conditions that could affect the safe installation of the material may vary from site to site. This suggested installation is provided only as a general guidance as to one typical installation method that may or may not be appropriate for a particular application. Purchased/user is solely responsible for the proper installation as may be appropriate or inspect the installation and submit any questions regarding the particular application of the product to a qualified engineer. Beon disclaims any responsibility for the results of any inappropriate or inadequate installation.
