## CHALKED GLAZE MASON JARS

Vintage distressed paint livens up your counters with timeless elegance.

### ITEMS:

- Rust-Oleum Chalked Paint in Serenity Blue & Linen White
- Rust-Oleum Chalked Decorative Glaze in Smoked & Aged
- Rust-Oleum Chalked Protective Topcoat in Matte Clear
- Disposable Nitrile Gloves & Clean lint-free rags
- Mason Jars
- Sandpaper
- Drop Cloth
- Painter's Tape
- (2) 2" Synthetic Paint Brushes
- Stir Sticks
- Glass Cleaner

### STEPS:

**Prepare** Always work in a well-ventilated area. Cover the floor and nearby items with drop cloths. Clean Jars with Glass Cleaner and lint-free cloth. Make sure jars are completely dry. Tape off any areas of jar you don't want to paint.

#### Paint

**Chalked Paint:** Apply Chalked Paint with light, even strokes for even flow and smoothest finish. Allow at least 2 hours before optional distressing step. To distress, use sandpaper to achieve your desired look and wipe clean with a lint free cloth.

**Decorative Glaze:** Brush Glaze on fully cured surface and wipe off to desired look with a lint-free cloth. Let dry a minimum of 8 hours before applying Rust-Oleum Chalked Topcoat. As shown, Smoked Glaze over Serenity Blue and Aged Glaze over Linen White.

**Chalked Topcoat:** To apply topcoat, brush on 1 to 2 even coats, allowing 30 minutes between each.

**Finish** Allow the topcoat to dry for 4 hours and then set your new creations into place.

# DIY CHALKED PICTURE FRAMES

The velvety-smooth texture of Chalked Ultra Matte paint gives these frames a soft, unique finish.

Take your picture frames to the next level with Chalked Ultra Matte spray paint. This paint lets you easily change any old or mismatched frames into like-new condition with a fresh and smooth chalked finish unlike any other. Here's how you can make them.

## ITEMS

- Chalked Ultra Matte Spray Paint
- Universal Mist Metallic Spray Paint
- (4) Picture Frames
- (4) Photo Mats
- Painter's Tape
- Drop Cloth
- Medium Grit Sandpaper (Optional)
- Tack Cloth (Optional)

**1. PREPARE:** Always work in a well-ventilated area and use a drop cloth to protect your workspace from overspray. If your picture frames have a high-gloss finish, lightly scuff them with medium grit sandpaper and then wipe them down with a tack cloth. Remove the glass and photo mats from the frames. Then, use painter's tape to mask off any parts of the frames you don't want to paint.

**2. PAINT:** Frames: Lay the frames flat on your drop cloth. Then, shake your can of **Chalked Ultra Matte Spray** for one minute after the mixing ball starts to rattle. Hold the can 10-12" away from the frames and spray in a sweeping motion. Apply 2-3 light coats, allowing a few minutes in between each. Then, set the frames aside to dry for four hours.

**Photo Mats:** Place the photo mats flat on the drop cloth and shake your **Universal Mist Metallic** spray paint for one minute. Then, hold the can 8-12" away from the photo mats and spray with the same technique you used to spray the frames. Let the photo mats dry completely for 24 hours.

**3. FINISH:** Once everything is dry, replace the glass, mats, and decorative prints in the frames. Hang the frames on your wall, making one large rectangle.

# CHALKED PAINT + ENTRYWAY TABLE

TRANSFORM A WORN DRESSER, INTO AN ELEGANT ENTRYWAY TABLE

Apply Rust-Oleum Chalked Ultra Matte paint to add style to your aged dresser. With one coat of Chalked paint you can cover the wear and tear of an old dresser and turn it into a fashionable piece.

## ITEMS

- Drop Cloth
- Sandpaper (fine/medium)
- Rust-Oleum Chalked Ultra Matte Paint
- Painter's Tape
- Dresser
- Rust-Oleum Chalked Protective Topcoat
- Lint free cloth
- High quality paint brush

## STEPS

- 1. PREPARE:** Always work in a well ventilated area. Cover nearby items with drop cloths to protect them from paint splatters. Remove hardware and tape off any areas you do not wish to paint. For best results, scuff sand the dresser. Wipe clean with a lint free cloth. Tip: Remove drawers before painting, and paint each drawer individually.
- 2. PAINT:** Stir the paint thoroughly. Use a high quality brush to apply a liberal coat to the entire surface. Avoid excessive brushing. One coat is required, but 1-2 coats is recommended if painting contrasting colors. Wait 30 minutes between each coat.
- 3. FINISH:** Allow your paint to dry for approximately 24 hours. Distressing lightly with sand paper is optional, use fine to medium sandpaper for this. Apply 1-2 coats of the Protective Topcoat for added durability. Add hardware and place your new piece in the entryway and enjoy.

*Always thoroughly review directions on the package before using any product.*

# DIY VINTAGE PICTURE FRAMES

You can give any picture frame a charming chalked finish with these steps.

Painting picture frames is an easy and budget-friendly way to get the exact look you want. Here's how we used Chalked Ultra Matte paint to give these wooden frames gorgeous color and a velvety-smooth finish.

## ITEMS

- Chalked Ultra Matte Paint – Serenity Blue
- Chalked Ultra Matte Paint – Linen White
- Chalked Ultra Matte Paint – Country Gray
- Chalked Protective Topcoat
- Wooden Picture Frames
- (3) Paint Brushes
- Drop Cloth
- Stir Stick
- Tack Cloth

**1. PREPARE:** Setup your work area in a well-ventilated space, and use a drop cloth to protect the area from paint drips. Wipe your frames down with a tack cloth to remove any dirt or dust.

**2. PAINT:** Stir your can of **Chalked Ultra Matte Paint** in Serenity Blue thoroughly with a stir stick. Then, use a paint brush to apply an even coat over the first frame. Be sure to use light, even brush strokes while painting. Let your first coat dry for 30 minutes. For more coverage, you can apply up to three coats of Chalked, but make sure to let the paint dry completely in between each coat. Repeat this step on the other two frames with your remaining paint in Linen White and Country Gray. Once you've reached your desired coverage on each frame, set them aside to dry for four hours.

**3. TOPCOAT:** Once your paint is completely dry, you can add a layer of protection to your frames with **Chalked Protective Topcoat**. To apply the topcoat, first stir it thoroughly with a stir stick. Then, use a paint brush to apply 1-2 even coats, allowing 30 minutes in between each.

**4. FINISH:** Let your topcoat dry completely for four hours. Then, add a decorative monogrammed design to the frames and display!
