

How to Use

Early stage mother and father can easily install and use it.

01

Remove moist from the place of usage
(washstand, sink etc)
in order for suction plate to be fixed.

02

Put suction plates in the seat and
give it a quarter turn to secure.
Then place it in proper location.

03

Lay the baby down on murmur
with a comfortable position.
(Tip. check the temperature of the water)

04

Lift up the baby's legs slightly
and remove defecation easily
with babbling water.
